

## Travel Summary – All Trips and Day Trips

### 10 Graves

Over the years, I have visited a number of sites where noteworthy people (and some animals) have been interred, including cemeteries, royal crypts, churches, presidential sites and other places. These people include presidents and other politicians, royalty, Hollywood celebrities and others who have achieved some degree of fame, notoriety or interest. In a few instances, a person has more than one gravesite because their remains were moved.
