

Travel Summary – All Trips and Day Trips

11 Filming Locations

Films and television shows may be filmed in studios or on location. Some sets have been moved to museums and put on display. I have knowingly come across a number of locations, which I list here. I have also toured some film studios. Some of these, such as Universal Studios Hollywood, have been home to dozens if not hundreds or even thousands of productions at their locations, but for studios I only list those that were highlighted in some way as part of the tour. For those shows that produce new episodes daily and I was there that day, I include the date of the production.
