

Travel Summary – All Trips and Day Trips

15 Native American Archaeological Sites

This list is related to my interests in Western Hemisphere pre-Columbian archaeology. It includes archaeological sites I visited and the archaeological finds (e.g., ruins, rock art, pottery, tools, earthworks, etc.) that I saw at those sites. It also lists the museums and other places where I saw exhibits of Native American archaeological artifacts. A specific location may have more than one distinct site or panel. I distinguish these using Roman numerals.
